Portable Slit Lamps

Keeler – British manufacturing experience and quality delivering great value

Precision machines aluminium chassis
Keeler designed and manufactured with the strength to withstand the daily traumas of the demanding ophthalmic environment. Lightweight, durable and robust.

Advanced optics, 10x & 16x (PSL Classic only) magnification
Top level multi layered glass is crafted into our Keeler multi-element and multilayer coated optical system to give maximum performance. Clarity is guaranteed.

Controllable illumination
Proven halogen illumination with illumination levels controlled by a rheostat, giving total control of your light levels. From zero to maximum, you choose.

Big Slit Lamp features, Portable usability
Unique features such as the fixation targets, and the 1mm square light patch for assessing anterior chamber flare sets the new standard for Portable Slit Lamps
The little indirect now has even bigger benefits!

Spectra Iris has been specifically designed as a compact, lightweight and portable indirect with big benefits for professionals on the move. It can be tucked away in its neat carrying case or hung around your neck when not in use.

Keeler Sport Frame
Spectra Iris comes on the new Keeler Sport Frame. This wrap around frame is not only attractive but provides maximum comfort and balance.

Flip up optics
The whole optical box and light pod can be flipped up allowing direct eye contact when talking to patients or for writing notes.

Variable PD
No restrictions. Just adjust your PD when you need it. It has a wide range between 48 to 76mm.

Great Lightweight Lithium ion Battery
The small compact Lithium ion battery simply clips on to your belt and can be stored in its charger when not in use.

Adjustable aperture for all pupil sizes
Portable and convenient
LED long lasting white illumination
Lightweight and comfortable
Stylish, comfortable, attractive frame
Vantage Plus Binocular Indirect Ophthalmoscope

Bright white illumination for a superior retinal view

We are delighted to present the new, exclusive Vantage Plus LED Convertible.

When you purchase the Vantage Plus LED you will automatically receive a Xenon bulb so you can decide which illumination you prefer without any extra cost!

The natural LED cooler colour provides brighter, whiter illumination, longer battery life, freedom from purchasing bulbs and a life expectancy of up to 10,000 hours.

Clinically, the superior optics combined with the natural LED illumination could provide greater detail, allowing you to find retinal pathology that was not visible with the Xenon bulb BIO’s.

Longest life, brightest and whitest, better detail

25% brighter than standard bulbs

New Slimline Lithium Polymer battery weighs only 53 grams

Combines natural LED and Lithium Polymer battery can provide up to 6 hours of use on a single charge

“The cooler colour temperature of the natural LED light source resulted in a level of image clarity that I’ve not found in another BIO”
Direct Ophthalmoscopes

A combination of optical perfection, superb ergonomics and versatile features make Keeler direct ophthalmoscopes the ideal choice.

With curved surfaces and subtle patient side marking, each ophthalmoscope has been designed to fit snugly into the orbital bone ensuring a patient friendly, non threatening instrument.

Jazz Ultra Ophthalmoscope
The perfect fit for your pocket
Part no: 1102-P-1113

- Brilliant LED illumination
- Trusted Keeler Optics provide the clearest, crispest views
- Powers +/- 1, 2, 3, 4, 6, 8, 10, 15 and 20 Diotropes
- Smooth aperture wheel for precise selection of apertures
- Protects your spectacles
- Only one AA battery required

Jazz Ophthalmoscope
With 3 interchangeable colour rings
Part no: 1102-P-1092

- Brilliant Xenon illumination
- +/- 20D range of powers
- Renowned high performance Keeler optics with aspherical lens
- Soft brow-rest suitable for use with spectacles
- Smooth aperture wheel for precise selection of apertures
Standard Ophthalmoscope
The industry standard
Part no: 1126-P-1005 (2.8V)
1126-P-1006 (3.6V)

- The positive maywheel lens control allows you to click through lens powers from +40D to -25D allowing detailed examination of the ocular structures and ease of use for spectacle wearers
- Two diagnostic beams – a wide angle beam for general examination and a macular beam for more detailed examination of the central retina
- A red free filter for enhanced vessel examination can be used with both diagnostic beams, particularly useful for diabetic assessment and monitoring

Practitioner Ophthalmoscope
The primary care specialist’s choice
Part no: 1127-P-1005 (2.8V)
1127-P-1006 (3.6V)

- The positive maywheel lens control allows you to select a range of lens powers from +40D to -25D. This allows detailed examination of the ocular structures and ease of use for spectacle wearers
- The Practitioner includes 6 beams for a full diagnostic capability and a blue filter, particularly useful for assessing corneal scratches in children
- A red free filter for enhanced vessel examination can be used with both diagnostic beams, particularly useful for diabetic assessment and monitoring
- Soft integral brow rest allows for easy positioning and protects your lenses if you are a spectacle wearer

Pocket Ophthalmoscope
Ideal for the practitioner on the move
Part no: 1102-P-1041

- Full diagnostic capability in a pocket sized instrument
- Ideal for domiciliary or ward use or as a ‘second’ instrument
- Security assured from the strong metal pocket clip
- A total of 6 diagnostic beams
- Pocket instruments are powered by standard AA batteries
**Otoscopes**

**Optical perfection and lightweight, ergonomic design**

A combination of optical perfection, superb ergonomics and versatile features make Keeler otoscopes the ideal choice. The Otoscopes range from the new ‘go anywhere’ Jazz Ultra pocket to the outstanding top of the range Fibre Optic Otoscope all providing the best possible view.

Manufactured in the UK and built from resilient, lightweight materials, a Keeler instrument will give you many years of trouble free service and withstand the rigours of everyday use. So, whatever your requirement from basic examination to detailed diagnosis, Keeler has the instrument for you.

---

**Jazz Ultra Otoscope**  
Only one AA battery required  
Part no: 1514-P-1187

- Fibre Optic Otoscope uses only one AA battery  
- Newly designed optical chassis provides greater optical quality and illumination accuracy  
- Brilliant LED illumination lasts more than 20,000 hours, based on 4 hours use per day  
- 3 x magnifying lens

**Jazz Otoscope**  
With 3 interchangeable colour rings  
Part no: 1514-P-1160

- Fibre Optic Otoscope  
- Brilliant LED illumination gives the best possible view  
- Longer battery life for a greener product  
- 3 x magnifying lens

**Standard Otoscope**  
Ideal for pneumatic testing  
Part no: 1518-P-1001 (2.8V)  
1518-P-1002 (3.6V)

- Closed head design particularly suited to pneumatic testing  
- 2.5x magnifying lens removable to allow the introduction of small instruments  
- Disposable specula supplied  
- Slimline handles provide 2.8V dry cell or 3.6V Lithium rechargeable options
Practitioner Otoscope
Open design for ease of use
Part no: 1519-P-1001 (2.8V)
1519-P-1002 (3.6V)

- Unobstructed open style head for easy introduction of small instruments for wax or foreign body removal
- Large slide aside 2.5x lens for clear view of aural structures and procedures under magnification
- Facility to undertake pneumatic testing for tympanic mobility
- Disposable specula supplied

Fibre Optic Otoscope
Designed for an unobstructed view
Part no: 1514-P-1136 (2.8V)
1514-P-1144 (3.6V)

- Genuine Halogen illumination transmitted via optic fibres for homogeneous illumination leading to clear and accurate diagnosis for aural images
- Large head design for unobstructed view
- Closed head system ideally suited to pneumatic testing for tympanic mobility
- Large slide aside 2.5x magnifying lens for clear view and aural structures and wax and foreign body removal procedures under magnification
- Disposable specula supplied

Pocket Otoscope
Ideal for domiciliary use
Part no: 1503-P-1034 (2.8V)

- Ideal for domiciliary or ward use or as a ‘second’ instrument
- Closed head design particularly suited as pneumatic testing
- 2.5x magnifying lens removable to allow the introduction of small instruments
- Disposable specula supplied
- Security from the strong metal pocket clip
- Pocket instruments are powered by standard AA batteries
Ophthalmic Sets

Wall Unit Sets
Part no: 1964-P-2003 (Standard/Standard)
1964-P-2002 (Practitioner/Practitioner)
1964-P-2004 (Practitioner/Fibre Optic)

- The new, compact wall mounted design is ideal for ward, surgery, consulting room and casualty use
- Strong coiled tangle-free cable permits instrument use up to 3 metres from transformer
- Robust construction is ideally suited to the busiest working conditions
- Automatic illumination when instruments are removed from the cradle

Rechargeable Desk Sets
Part no: 1729-P-1029 (Standard/Standard)
1729-P-1028 (Practitioner/Practitioner)
1729-P-1030 (Practitioner/Fibre Optic)

- Can be desk or wall mounted to suit your needs
- Lithium-ion technology provides over 2 hours of continuous use, and 2 hour rapid charge
- LEDs indicate when battery life is low, charging or fully charged
- Available with the Keeler range of ophthalmoscopes and otoscopes
Jazz Fibre Optic Otoscope 2.8V
Practitioner/Fibre Optic Diagnostic Set 3.6V
Practitioner/Practitioner Rechargeable Desk Set 3.6V
Bulb extractor for Deluxe, Medic Lux, Standard & Pocket Otoscopes
Fibre Optic Otoscope 2.8V Head and bulb only in carton
Spectra Iris Indirect on Small Red Keeler Frame with Lithium Battery & Charger
Spectra Iris Indirect on Pink Keeler Frame with Lithium Battery & Charger
Spectra Iris Indirect on Blue Z Keeler Frame with Lithium Battery & Charger
Spectra Iris Indirect on Large Sky Blue Keeler Frame with Lithium Battery & Charger
Spectra Iris Indirect on Small Blue Z Keeler Frame with Lithium Battery & Charger
Viewing Lens for Practitioner Otoscope & Vista Otoscope (Square)
Practitioner Ophthalmoscope 2.8V
Standard Ophthalmoscope 3.6V Head and bulb only in carton
Spectra Iris Indirect on Red Keeler Frame with Lithium Battery & Charger
Spectra Iris Indirect on Large Blue Z Keeler Frame with Lithium Battery & Charger
Spectra Iris Indirect on Large Black Keeler Frame with Lithium Battery & Charger
Spectra Iris Indirect on Small Black Keeler Frame with Lithium Battery & Charger
3.6V Specialist Ophthalmoscope and Streak Retinoscope Set
3.6V Streak Retinoscope Set
